## Maternity/Sleeping/Nursing Bras

### Support

- Wider straps for greater comfort and increased support.
- The tight knit and wide under band substitutes under wire resulting in extra support & “lifting” of the breasts.
- Integrated, seamless triangle inner cups in the drop cup bra result in greater comfort and more support when drop cup is down.
- Two side panels on the drop cup and maternity bras are strategically placed for growth when milk starts to develop.
- Large sports style back supports the middle back which reduces pressure on the straps.
- Support = Comfort

### Comfort

- A snug non-irritating fit.
- No hooks or buttons; ideal under t-shirts.
- No rolling or bunching of the underarm or the wide under band fabric.
- True elasticity; breathable elasthan blended fabrics allow the bras to grow with your breasts when milk comes in and retain their original shape after washing.
- No rough edges and the softest quality fabrics including lace ensure no chaffing or irritation.
- Excellent for sleeping as no hooks or buttons.

## Maternity/Sleeping/Nursing Bras

### Function

- Ease of feeding guaranteed i.e. one-handed clasp on the drop cup bra; easy lift & feed for the lace feeding & comfort feeding sleep bras.
- Versatile as each bra covers at least 2 sizes so when milk comes in you don't have to change bras.
- Health professionals advise against under wire bras as this can result in blocked milk ducts i.e. mastitis
- Due to the wide elasticised under band and elastan blend fabric, the bras should last throughout your pregnancy and nursing i.e. grow-in-style.
- The Comfort Feeding Sleep & Maternity bras can be used after birth for getting back into shape as sports bras.
- Crimping between the breasts increases the V effect in the front for wear with t-shirts/low tops.
- A combination of sporty and sexy underwear to increase confidence and self esteem.
- Available in 4 sizes and white, black or beige.
- Can be machine washed and tumble dried.
- Endorsed by Leading Childbirth Educators

## Item # 505 Maternity Support Band

"It is amazing how light my tummy feels and no more back ache; wonderful" – Suzanne Thomsen - Denmark

70% of mothers complain of back pain, and 90% report abdominal soreness. The Carriwell support band provides relief from lower abdominal pain and back aches.

- Soft, breathable microfibre which warms lower back i.e. excellent for strained muscles.
- Unique knitting process ensures no roll-down effect.
- Fits comfortably over your tummy and will not irritate your skin
- Can be worn discreetly under tight clothing i.e. seamless
- Easy to put on no hooks; one piece.

Composition	Colours	Sizes
91% Polyamide, 9% Elastan	■ Black □ White	Small/Medium Large/Xlarge

### Item # 125 Washable Breast Pads

It is estimated that 75% of women initiate breastfeeding; 50% continue to breast feed for at least 6 months. From birth to approx. 4 months, babies average eight to twelve nursings a day. At four to six months, approximately 6 nursings a day.

On average a women will use in excess of 3000 disposable pads at approx. €0,12 per pad i.e. approx. €375 on breast pads. 3 packs of 6 washable breast pads will last two births at approx. € 12, 00 per pack of 6 i.e. €36 contra € 375.

- Economical
- Environmentally friendly and machine washable.
- Hygienic; the natural fabric against the skin does not disintegrate & stick to the skin like some disposable breast pads.
- The sugar content in breast milk crystallizes and hardens on the pads which results in cracked and sore nipples if pads are not changed frequently.
- The layer against the skin is unbleached natural 100% cotton which is very soft and allows quick penetration.
- The 100% polyester fleece inner has been specifically developed for hospital bed linen protection i.e. promotes air circulation & very high absorbency.
- The third Techmabreath inner layer behind the fleece is both breathable and waterproof.
- The outer layer is 100% cotton flannel.
- No dart to eliminate leakage and irritation.

**Item # 405/450**  
**Full Belly Light Support Panty Full & G String**

Support is synonymous with comfort and by knitting in a subtle supportive band under the tummy, a feeling of lift & relief is achieved which increases comfort. The compact knitting on the back of the panties relieves pressure on the lower back.

- Seamless & invisible design.
- The generous leg openings are very stretchy and do not cut into your legs.
- Soft, breathable microfibre fabric which stretches with your growing belly.
- The full seat stays in place, no rolling or riding up effect.
- Sizing based on pre-pregnancy to accommodate a growing belly.
- Available in G String for those tighter fitting pants and full back.

Composition	Colours	Sizes
91% Polyamide, 9% Elastan	■ Black □ White	Small/Medium Large/Xlarge

## Panties

**Item # 1001/1101 Feeding Sleep Shirts**  
**Item # 801/901 Feeding T-Shirt**

Designed in South Africa in 1997, these patented nursing shirts have been developed for new moms who want to nurse discreetly with confidence. The shirts are functional and comfortable as only the front panel lifts when feeding, preventing the need to lift the entire shirt and expose you're back in a "cool" hospital ward or windy outdoors.

No problem holding baby as you simply lift the overlapping front panel, release your drop cup bra clasp and nurse, all with one hand!

- Available in sleep shirts and t-shirts styling; short sleeve (SS) & long sleeve (LS)
- Breast openings strategically positioned for discreet feeding.
